

First Check Point Day 2

Planning Rubric

Today:

1. **Title of Proposal:** Hydrogen Futuro
2. **Introduction** Three sentences (can be modified later)

In this project we focus on the health and environmental conditions of mankind. There are increasing amount of greenhouse gases in the atmosphere which affects the ozone layer and causes climate change. We would eliminate all vehicles except futuristic metro, also, instead of using fuel from oil we would use Hydrogen, therefore, the amount of carbon dioxide released from vehicles would decrease and instead, the by product would be water.

3. **Project Objective**

The objective of this project is to find the effective building and transportation of the future city which can improve the environment in the future and reduce the cost of the construction.

4. **Division of Duties List**

- | | | |
|--------------------------------------|-----|-----------------------|
| a) Writing the proposal | --- | Name: Mui, Pear, Prim |
| b) Acquiring the materials | --- | Name: Mui, Prim, Pear |
